Your menu should reflect your tastes and preferences. Generally, when feeding guests, you will always have specific food requests -- such as vegan, vegetarians, in addition to picky eaters, in this case buffets or family-style food servings work well. We also offer plated meals, preset salads, preset desserts, passed hors d'oeuvres, dessert stations, coffee services, coffee bars -- you name it, we can do it for you!

For some events, food displays are often determined by the type of event you are planning and the menu selection. In contrast, you can also be creative with round buffets, straight line buffets, or even a zig-zag setup. The food can be set using a multitude of serving vessels and displays.

Ask yourself questions about your presentation:

What would you like to see? Will you add fresh flowers or decor to the food tables? Do you want colored/patterned linen for food stations or buffets? Do you have a preference for the type of vessels used for serving the food? Do you want a preset salad before a buffet meal? How about a preset dessert? Do you prefer a plated meal instead of a buffet?
